

Connecting Manufacturers With Solution Providers Through Ready-To-Deploy Iot Use Cases

What is BoxTech?

Boxtech Delivers Reliable, IoT Solutions
by Connecting Global Hardware, Local
Expertise, and Smart City Innovations.

Our Story

Started in M2M / Early IoT

Built a strong foundation through engineering-led sales and a deep understanding of solution-provider challenges.

01

2010

Regional Projects & Standards

Delivered key regional projects and contributed to UAE Rent-a-Car regulation and Saudi Transport standards.

02

2022

Ecosystem Insight

Realized that successful IoT use cases need the right mix of hardware, sensors, integrations, connectivity, and platforms.

03

2025

BoxTech Was Born

BoxTech was born from the vision of creating one destination for IoT components, technologies, and practical use cases.

04

2026

VISION

Boxtech aims to be the region's leading IoT value-added partner—connecting global manufacturers with solution providers to power smart cities and connected industries, enabling a smarter, more efficient, sustainable future.

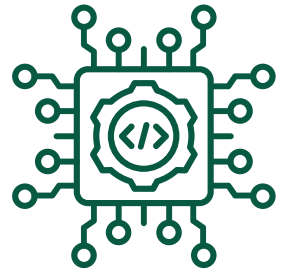

MISSION

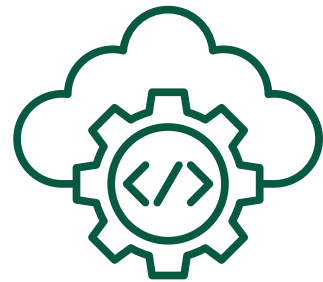

BoxTech accelerates IoT adoption by equipping solution providers with quality hardware, reliable connectivity, and expert technical support—plus integration, testing/certification, custom sourcing, logistics warehousing, after-sales service, and consulting to simplify implementation and improve efficiency.

WHAT WE PROVIDE

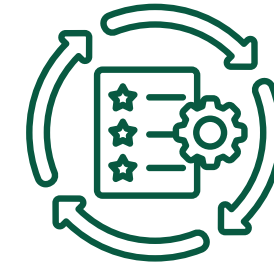

**IoT Hardware
Sourcing**

**Software Platforms
& Integrations**

**System Integration
& Technical Support**

**Testing, Validation
& Compliance**

**Local Stock &
After- Sales**

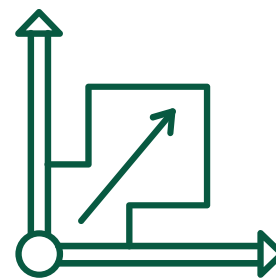

IMPACT WE CREATE

Faster Go-To-Market

Lower Delivery Risk

**Scalable, Reliable
Deployments**

**Reduced Cost &
Effort**

**Enables Smart Cities
& Industrial IoT**

VALUE WE DELIVER

**SMART MOBILITY
SOLUTIONS**

**SMART CITY
SOLUTIONS**

**IOT SOFTWARE
DEVELOPMENT**

SMART MOBILITY USE CASES

Real-Time Tracking

Monitor location, speed, and routes.

Asset Security

Track high-value assets and prevent theft.

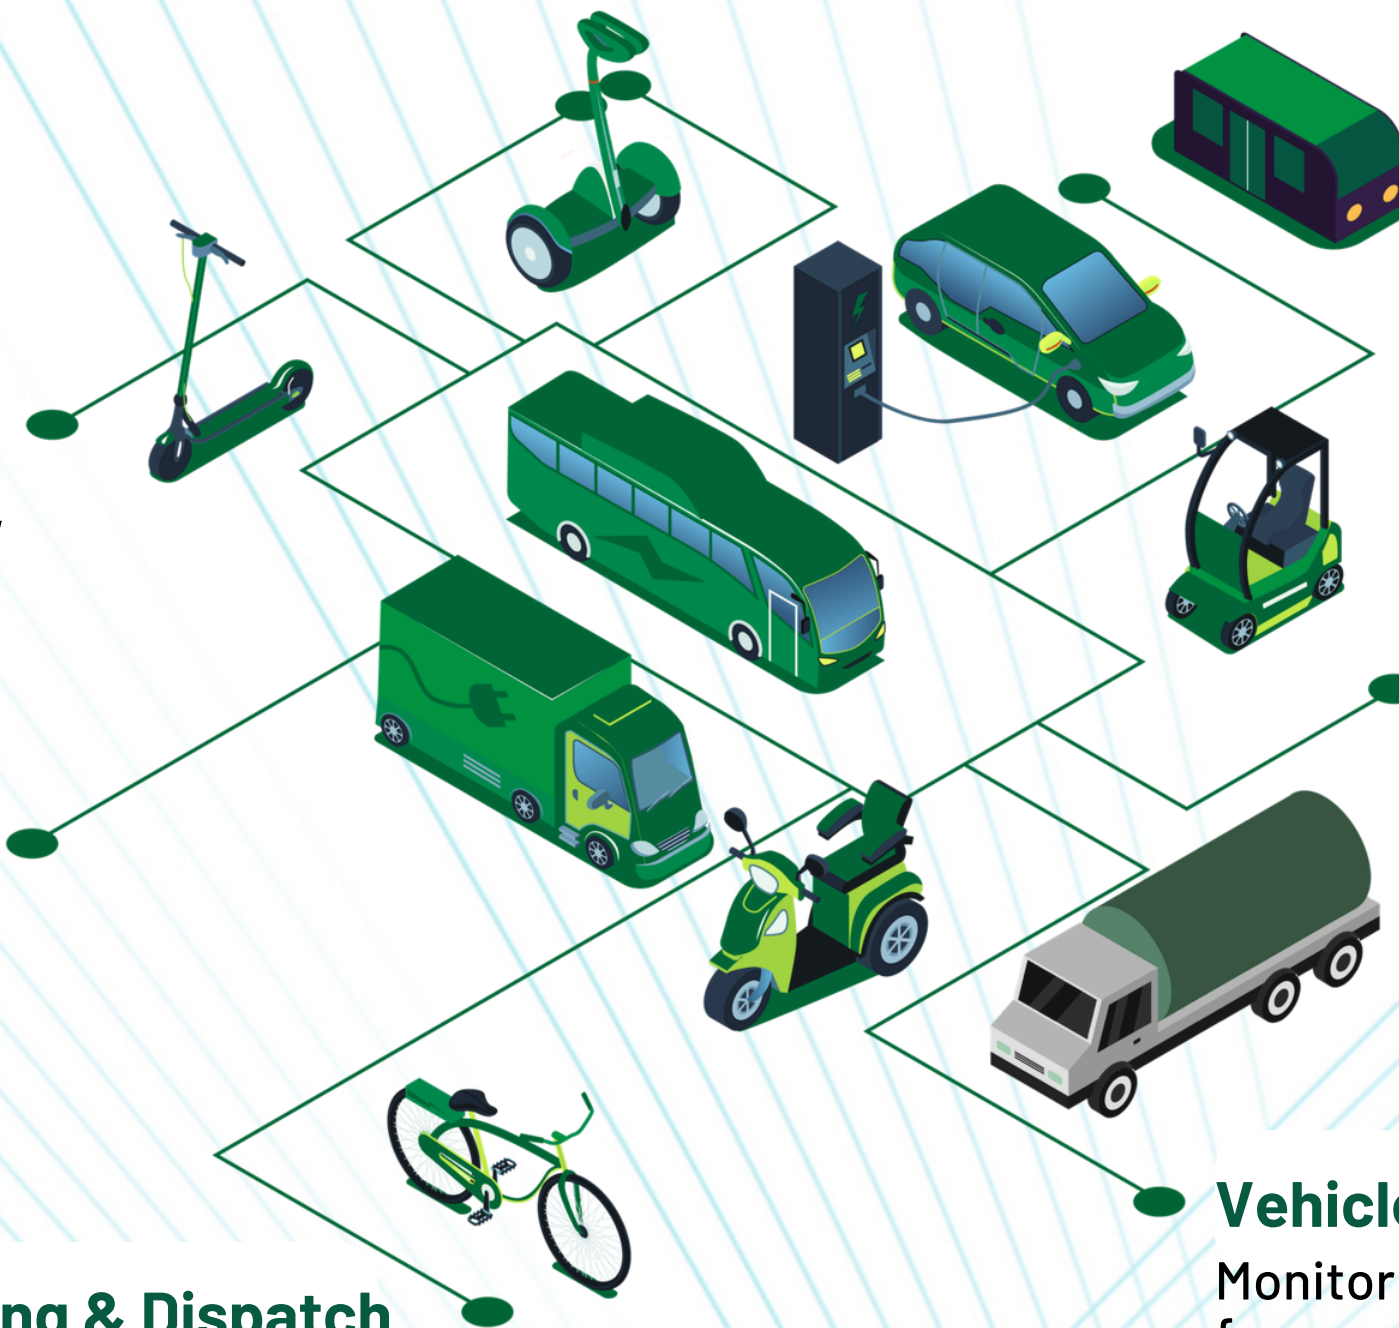

AI Routing & Dispatch
Optimize routes with real-time traffic for faster deliveries.

Fuel Optimization

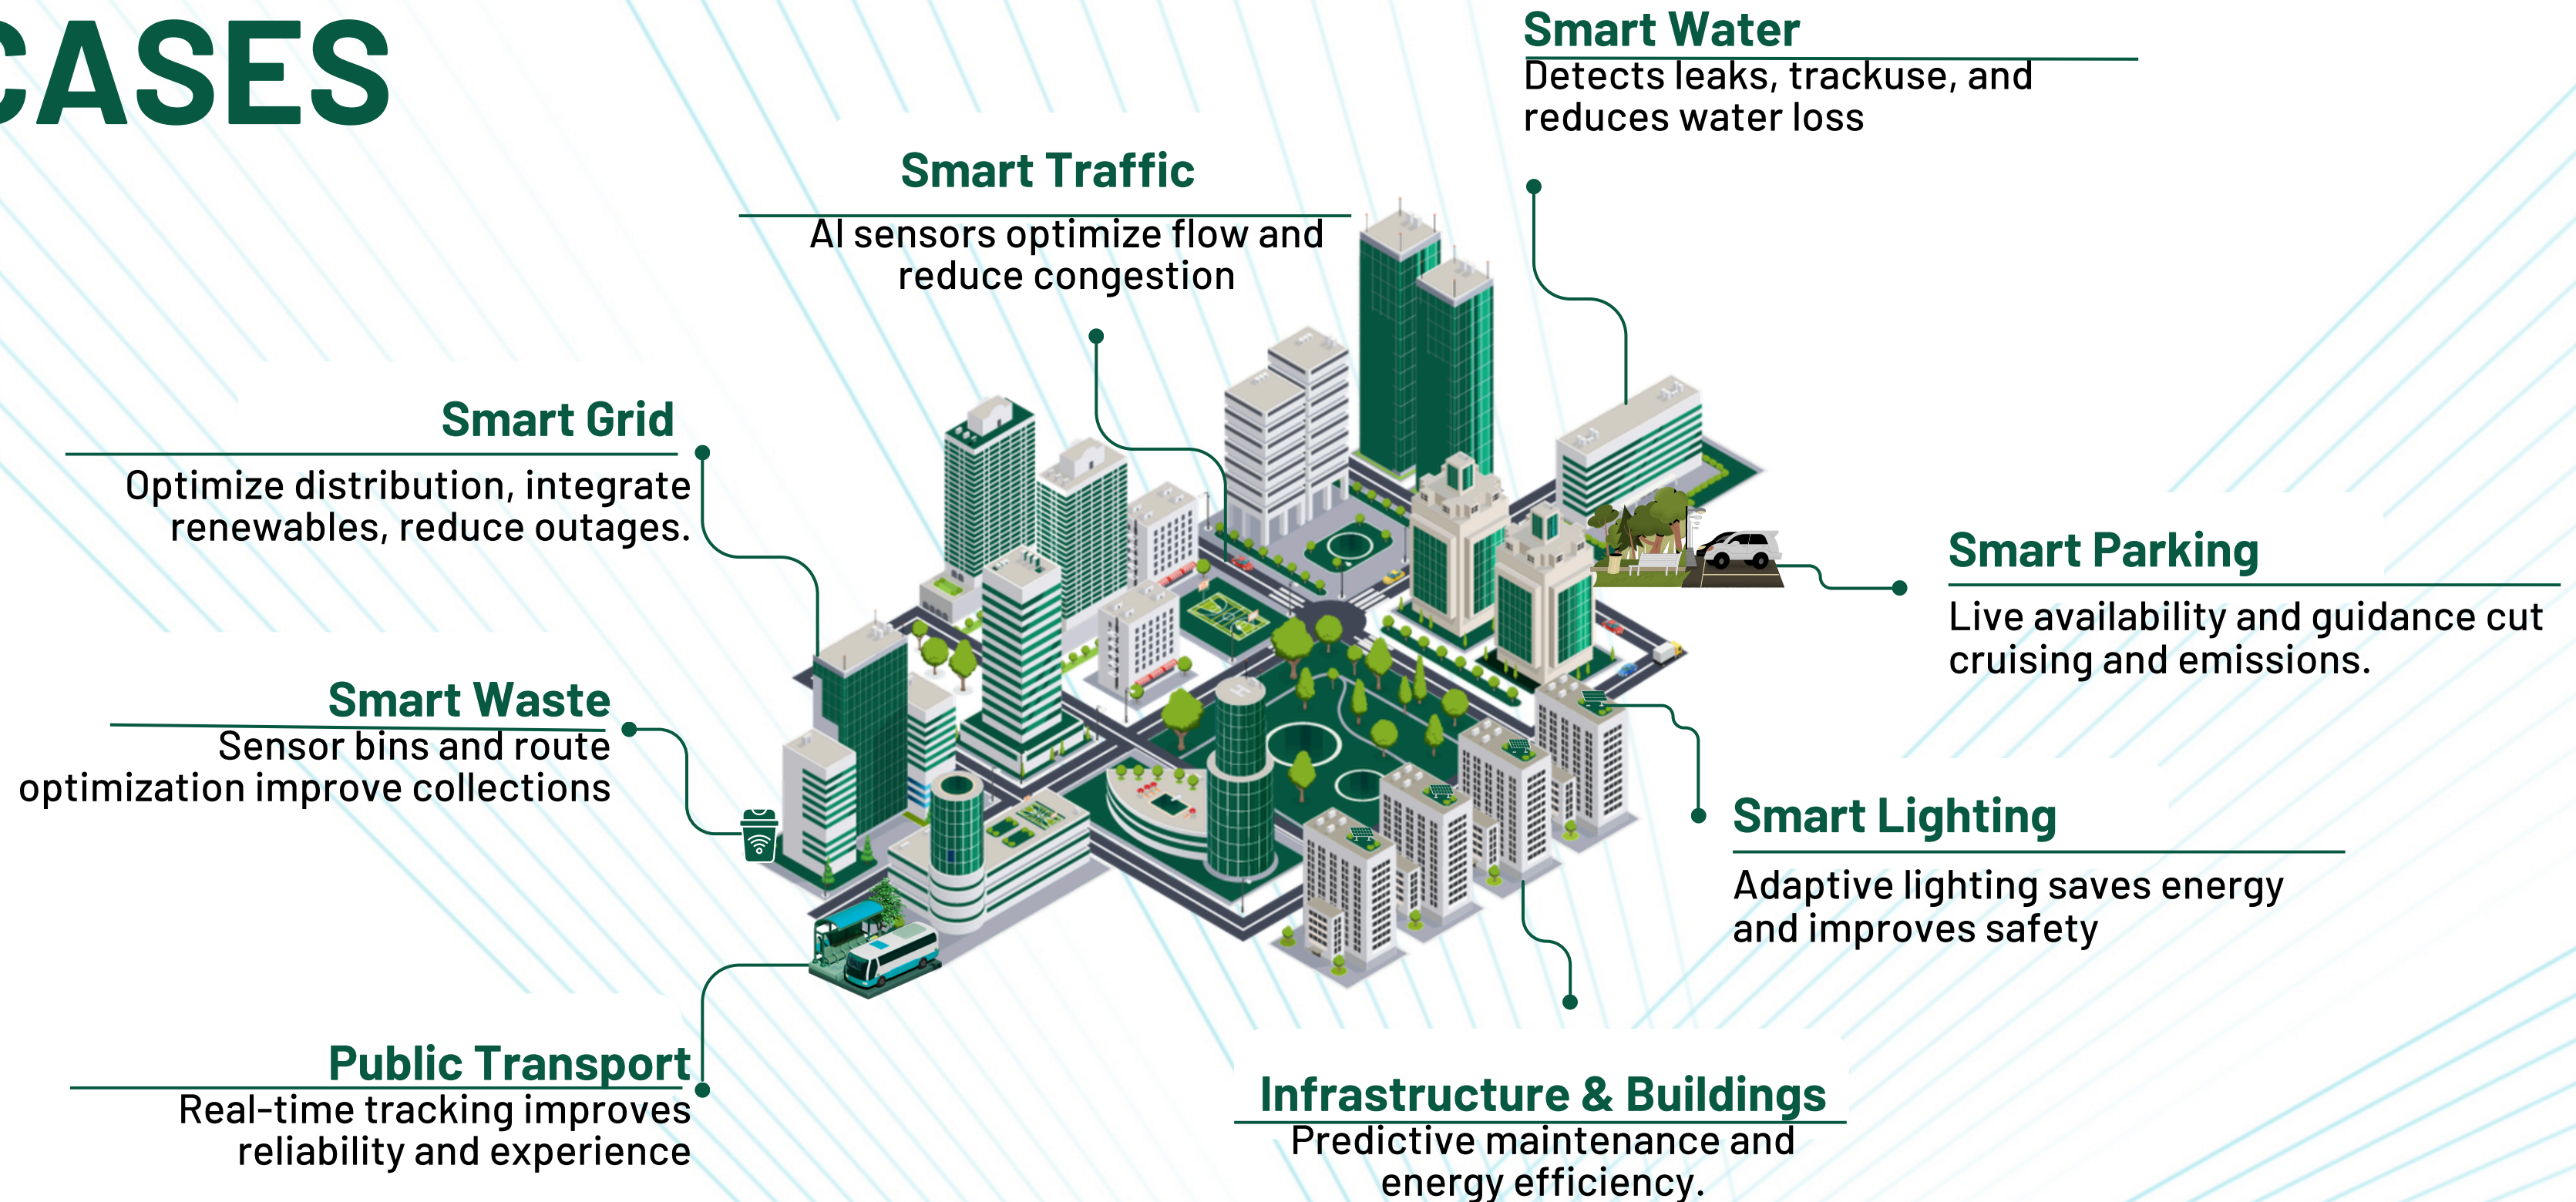

Track usage, detect theft, reduce costs.

Vehicle Health

Monitor engine/tires/battery for proactive maintenance.

SMART CITY USE CASES

IOT SOFTWARE DEVELOPMENT

01

Custom IoT Applications & Platforms:

Custom-built mobile/web apps and tailored IoT platforms with intuitive dashboards, analytics, and APIs aligned to operational needs

02

Real-Time Monitoring, Control & Insights:

Collect, process, and analyze sensor data in real time to enable actionable decisions and automated control

03

Cloud & Edge Connectivity:

Secure, scalable cloud and edge integrations for efficient IoT data management and low-latency processing

04

Device & Protocol Integration:

Middleware that connects diverse devices and supports multiple IoT communication standards for seamless interoperability

CHALLENGES → BOXTECH SOLUTIONS

Platform:

Scalable, multi protocol compatibility → Unified IoT platform for long term scale

Hardware:

Durable, accurate, cost effective devices → Industrial grade, tested sensors

Integration:

Complex setup and configurations → Fast, low disruption integration

Use Cases:

Clear, measurable applications → R and D driven, proven outcomes

ROI:

Justify investment → Cost saving, value from day one solutions

WHERE WE OPERATE

Dubai

Office No: 106, Building A6, Dubai Digital
Park, Dubai Silicon Oasis, UAE

Saudi Arabia

Office No: 9, Building No. 35, Olaya Dist.
Riyadh,

Australia

Office No: 7/31 Queen St, Melbourne

+971-56-4144535

WHY CHOOSE BOXTECH

R&D-Led LED Innovation

Advanced engineering, continuous improvement, and future-ready lighting technology

15+ Years of Industry Expertise

Proven track record across commercial, industrial, and infrastructure projects

Proven ROI & Performance

Measurable energy savings, reduced maintenance costs, and fast payback periods

End-to-End Ecosystem

Complete lifecycle delivery: design, supply, installation, commissioning, and after-sales service

Global Reach + Local Execution

International capability with strong on ground teams for quick response and support

BoxTech

THANK YOU
